

## **St. Laurence Catholic School Goals**

We believe that St. Laurence provides a variety of opportunities to encourage and develop our students academically, spiritually and physically. However, we realize that improvement is always possible. It is with this attitude that we propose the following goals.

- To foster growth among students as well as adults through classes, workshops and retreats.
- To continue our weekly masses and to encourage student participation.
- To continue growth in the spirit that St. Laurence School exemplifies: a generous spirit of sharing, caring and understanding.
- To foster the academic development of each student so that he/she may achieve their full potential.
- To continue to update technology in our school with effective technological equipment and workshops.
- To provide a safe, clean, attractive and well-maintained environment.
- To continue development of the curriculum.
- To maintain communication with parents, parish members and the community through newsletters, community newspapers, and church bulletins.
